WORK EXPERIENCE

Game & Systems Designer / Developer | Feb 2025 – Present
Spectrum Games (**World 23**)

- Designs and develops narrative, mechanics, and core systems for **World 23**, a fast-paced top-down hack-and-slash RPG, within a collaborative indie studio.
- Prototypes and implements foundational gameplay systems and modular architecture to enhance player interaction and experience, while also developing the game's official website (**world23game.com**).

IT Manager | Sep 2024 – Feb 2025
88 Restaurant & Amante Pizza

- Managed and maintained end-to-end IT infrastructure, including POS systems, internal networks, and software solutions.
- Developed a custom Firebase employee clock-in/out application and maintained websites integrated with third-party online ordering and payment gateways.

Game Development Instructor & Guest Lecturer | Feb 2021 – Dec 2021
Hasan Kalyoncu University, Yeditepe University & GamFed Turkiye

- Led Unity and C# development workshops at Hasan Kalyoncu University, guiding students from scratch to build a complete platformer game.
- Delivered English and Turkish lectures at Yeditepe University (VCD474) and GamFed Turkiye on interactive storytelling, advanced Twine macros, and no-code engines (Bitsy, Flickgame).

Game Designer, Developer & Studio Manager | Jan 2021 – Dec 2021
EKSOT Game Studio & 2Medya Studios (Aug 2021)

- Designed mobile game mechanics and optimized gameplay in Unity and C# at EKSOT Game Studio, contributing to 8 App Store releases: **Jelly Bear Smash**, **Influencer Follow**, **Tap Timer Hero**, **Flamingo Runner**, **Sumo Collect**, **Cut that Tree**, **Stone Runner**, and **Artistic Jumping**.
- Authored comprehensive Game Design Documents (GDDs) and managed developers, artists, and designers at 2Medya Studios for **Plug Challenge**, Detective Runner, and Math Bomber.

AWARDS AND SELECTED PROJECTS

Jury's Special Award – Migros Hemen & Selected Works
Gamification Hackathon 3 award winner **Migros Hemen**, **OyunIstanbul Test** (world's first municipal gamified city experiment), and **Ahmet's Story (Gameplay Video)** (interactive narrative prototype for a streaming platform).

Experimental Games & Rapid Prototypes
Developed **Play On MIDI** (merging a MIDI controller and display), **Two People Simulator** (two players controlling one character across separate PCs), **Feelend VR** (VR music video experience), and satirical personal projects (**Anger and Agony**).

Game Jam Organization & Entries
Organized and served on the jury for GamFed Turkiye's DOT JAM (2021) and mentored at Mini Game Jam (2022). Jam entries: **Cube Carrier**, **Dog Rescue**, **didn't take a step back**, **Super Last Supper**, and **Futbolun Frekansı**.

ACADEMIC HISTORY & SKILLS

Istanbul Bilgi University | 2017 – 2022
Bachelor of Arts in Digital Game Design

- **GPA:** 3.88 / 4.00

Technical Skills & Languages

- Game & Systems Design, Rapid Prototyping, GDD Documentation, Interactive Storytelling
- Unity, C#, Python, Twine, Firebase, Git, Web Development, Bitsy / Flickgame
- **Languages:** Turkish (Native), English (Professional Working Proficiency)
